Experience Passport

This year we have issued all students with an experience passport (pictured below). This initiative encourages students to broaden their experiences and perhaps partake in events or challenges that they may not have previously considered. Students are able to gain badges when they hit certain milestones such as completing 20 experiences. We have tried to promote experiences which have little or no cost within the passport so the rewards are open to all. Part of the process is for students to state evidence that they have completed the experience as well as parents signing it off.

We have has some fantastic feedback on the system so far. We are looking forward to seeing and hearing about some of the experiences students have engaged with over the half term break.

Enrichment

At Wath Academy, we have a very proud tradition of providing outstanding enrichment opportunities for our students to take part in. We have over 70 enrichment clubs running this half term. Robotics, and Science Club pictured below are just two examples from the extensive range we have on offer within the Academy . For more information, please use the link provided.

Safeguarding

BeReal is the latest trending social media app. The concept is that people see others in their authentic day-to-day lives, sharing candid photos without editing or applying filters. Each day at a random time, users are simultaneously notified to take a photo of what they're doing at that exact moment. The two-minute window to submit an image means there's no time to select a particularly glamorous or exciting activity. BeReal shares two pictures: a selfie, and an image of the immediate surroundings. Users can only view and react to their friends' photos once they upload their own. In the guide, you'll find tips on a number of potential risks such as strangers, location sharing and visible personal data.

Oxford University Visit

On Thursday 14 October, some of our Y11 students visited Oxford University. During the day students toured two of the Colleges - Magdalen College and Brasenose College - and experienced a traditional sit down two-course lunch in Magdalen's historic dining hall. Tours incorporated some of the sights of Oxford including the Radcliffe Camera, an iconic Oxford landmark and a working library. Students also took part in bespoke workshops with Student Ambassadors, learning about university life at one of the most respected universities and what should be considered when planning post 16 choices. Everyone had a great day and feedback included descriptions such as, "insightful, eye-opening and thought provoking," and one student commented that it was, "...fun just to visit such a prestigious university in Y11."

PCAB

Last night we hosted our first PCAB (Parent & Community Advisory Board). It was great to see some familiar faces as well as some new ones. We will be uploading a document to the website which will detail some of the questions posed by parents following our presentations. Please see a link below to the section of the website which contains information about the group and previous meetings.

<https://www.wathacademy.com/pcab>

If you wish to be a part of PCAB you can email pcab@wathacademy.com

Website

Prior to the start of the new academic year departments worked hard on updating their curriculum documentation. Each department has a 39-week plan and a start to end point grid which details what students will be learning throughout the year. We have made these documents available on our website for all parents to view. Please see the link below to view them:

Contacting the Academy

As previously mentioned, we have placed the email addresses of key staff on the website. This is often the best way to contact staff as during the day they will be teaching, in meetings or on active support. Staff will respond within 48 hours or sooner if it is urgent.

Thank you for your continued support.

Yours sincerely
