EASTER HOLIDAY		Extreme Geography <i>Brazil's Favelas</i>		Extreme Geography <i>Extreme Weather</i>		Pandemics		Mega Cities <i>Causes of Growth, distribution and effects</i>	
HT6 (7 th June – 16 th July 2021 (6 weeks))						<p>In Year 7 Geography, our intent is to excite students in Geography and Geographical Enquiry. It is important that we teach key map skills so that students can access the challenges of the curriculum ahead. We then move on to enriching students' place knowledge by exploring a range of Awe and Wonders and places of Extreme Geography, providing access to cultural capital, awe and wonder. Students can then move on to developing their geographical skills and knowledge in an issues-based topic; The challenge of Mega Cities. This will allow students to develop their subject knowledge in Geography and build on their emerging skills.</p>

Landscapes: Glaciers <i>Processes, Landforms and Challenges</i>		Global Challenge <i>Climate Change</i>		Global Challenge <i>Is there a Water Crisis?</i>					
HT6 (7 th June – 16 th July 2021 (6 weeks))						<p>In Year 9, the curriculum is sequenced to add further challenge. Processes, environments and people are studied in relation to the countries covered in Year 7 and Year 8. Students will now explore interrelationships between people, place and environments. Students will now apply processes to explain how landforms are developed. Finally, the last part of the key stage is 'Global Challenge'. Here, students will use their excellent subject knowledge and skills to evaluate a range of contemporary issues which face them and their future. Students will recognise challenges, solve mysteries and offer solutions to the planet's most pressing issues (Climate, Water, Health and the Plastic Crisis)</p>

Fieldwork <i>Downstream Changes, Burbage Brook</i>		Fieldwork <i>Industrial Change, Manvers</i>							
HT6 (7 th June – 16 th July 2021 (6 weeks))						<p>This year commences with Catch-Up ensuring that all students are ‘up to speed’ with their subject, so that no student is left behind in their learning. Following on, students will now develop their skills in Human Geography and see how aspects of the human environment are truly interrelated and relevant to students’ lives. Fieldwork in two contrasting environments will allow students to learn outside of the classroom and apply their knowledge, understanding and skills to outdoor learning and fieldwork collection. The ‘Trial Exam Prep.’ will give students the opportunity to consolidate their learning and respond to feedback.</p>

		Physical: Coastal Systems:			Systems and Processes					
<i>Human: Changing Places:</i>			Nature and Importance of Place							
HT6 (7 th June – 16 th July 2021 (6 weeks))						<p>During this year, students will build on their previous geographical knowledge, but study Physical and Human geography separately to develop their expertise in each area. Students will explore a vast range of hazards, issues and challenges, developing a Mastery knowledge in Geography. New topics and knowledge will be added to further enrich students; the concept and importance of 'Place'. Fieldwork allows students to apply their knowledge and understanding of geography to the field and develop a suitable enquiry which they are interested in, developing a further love and passion for Geography.</p>

		Revision & Past Papers <i>Paper 1: Physical Geography and Paper 2: Human Geography</i>								
HT6 (7 th June – 16 th July 2021 (6 weeks))						<p>During this year, students will complete their Paper 1 and Paper 2 subject content, developing a full and holistic topic of Geography. Additionally, Year 13 will hand in their NEA which contributes towards the final grade. Students will have gone through the full geographical cycle of planning, questioning, planning methods, presenting, analysing and evaluating. These skills will prepare students for further study and employment. This year is designed to develop Outstanding subject knowledge across a range of geographical areas. Challenging skills are embed to allow students to apply these to the different elements of the subject.</p>
